To Whom It May Concern:

I am writing with respect to Ms. Simone Boyd. Simone had an internship with our company for the Spring Semester. During her internship, Simone carried out many tasks, such as the following:

- Wrote ARM assembly language on an M4 processor
- Wrote ARM assembly language on an A15 processor
- Wrote NEON assembly language on an A15 processor
- Wrote Vector Floating Point Unit assembly language on an M4 processor
- Wrote Vector Floating Point Unit assembly language on an A15 processor
- Helped write control software for a PTZ Camera
- Wrote file management utility software to support processes running in parallel
- Wrote utility software to auto generate lookup tables to support JPEG preprocessing
- Integrated Weather Station into a Live Computer System for Engineering Test
- Assisted with Game Camera System Testing
- Helped with System Documentation
- Helped with Systems Testing
- Worked on a Team

Simone worked well as a team member with a good attitude across many projects.

Sincerely,

Rachel Goshorn, Ph.D.
